I. Introduction

From the *Safe Schools against Violence in Education* (“Project SAVE”) public forums, led by Lieutenant

Governor Mary O. Donohue, this definition of CHARACTER EDUCATION was disseminated:

“Character Education is the deliberate effort to help people understand, care about, and acts upon core ethical values.” It is based on the following premises:

1. Destructive behaviors have a common core: the absence of good character.
2. People do not automatically develop good character. Intentional and focused efforts must be made to foster the character development of the young.
3. Good character consists of moral knowing, moral feeling, and moral action.
4. The core ethical values are not mere subjective preferences. They are rooted in our human nature and express our common humanity.

Character is defined comprehensively to include thinking, feeling, and behavior. “The two great goals of education: growing academically and becoming the best people we can be!”

Character Education shall instruct students on the principles of:

- Honesty
- Tolerance
- Personal responsibility
- Respect for others
- Awareness and sensitivity to discrimination and/or harassment as defined in the Dignity for All
- Students Act
- Civility in relation to people of different races, gender, national origins, ethnic groups, religions, religious practices, physical or mental abilities, sexual orientation or weight
- Observance of laws and rules
- Courtesy

- Dignity, and other traits which will enhance the quality of students' experiences in, and contributions to, the community
- Safe and responsible use of the Internet and electronic communications

II. Strategic Plan

At ESM, we recognize the critically important connection of building the internal thinking habits of our students and staff with skill development that empowers all for success today and tomorrow.

Increasing Student Connectedness:

- Adult Support
- Belonging to a positive peer group
- Commitment to Education
- School Environment

Identifying dispositions as critically important for our students comes from our long-term alignment with Stephen Covey's 7 Habits of Highly Effective People. Stephen Covey's dispositions work connects our dispositions with the way we see our world, which then impacts what we do, which in turn shapes our results.

We focus on building the positive dispositions of our students and staff through multiple practices at ESM, including the teaching of 7 Habits of Happy Kids, the 7 Habits of Highly Effective Teens, and the 7 Habits of Highly Effective People. Our curriculum at ESM includes targeted Habits of Mind in our instructional units that are framed with the Thoughtful Classroom instructional framework. Our instructional and leadership staff all use Harvey Silver's Thoughtful Classroom framework and resources. Through the Positivity Project, Responsive Classroom, PBIS and Richard and Becky DuFour's Professional Learning Communities, we prioritize our teaching, reinforcing and celebrating of positive dispositions in our students and staff.

A. Dispositions: The internal motivation to:

- Be open minded and flexible in thinking
- Listen with understanding and empathy
- Desire continual learning: Persist and persevere
- Manage choices and impulsivity

- Understand and manage personal relationships
- Think about thinking
- Be brave and take responsible risks
- Think interdependently with clear communication
- Create, innovate, imagine
- Be curious and question; Find humor
- Be grateful and respond with wonderment and appreciation
- Desire integrity and honesty

B. Stephen Covey’s 7 Habits of Highly Effective People: Consistent focus on a number of critical factors build a common vision and sustains trust and commitment with our community, including the deep implementation of Stephen R. Covey’s 7 Habits of Highly Effective People (Cover, 2004) These habits provide structure for putting our beliefs into actions.

1. Be Proactive

Recognize how choices based on personal experiences or beliefs can profoundly impact your effectiveness, both positively and negatively.

- Involving our students, staff and community in the planning, implementation and monitoring of our priorities in the ESM strategic plan
- Staying focused on our “Circle of Influence”, which are those things we can influence
- Modeling and teaching positive behavior

2. Begin with the End in Mind

Develop a clear definition of what is and is not important to you by creating the most important road map you’ll ever have.

- Having an unrelenting focus on what is best for our students; now and in their future
- Consistently communicating, building and maintaining our ESM vision, mission and beliefs
- Continually reflecting on and evaluating existing programs, our team and individual actions, and next steps for improvement based upon our ESM vision, mission, beliefs and priorities within the ESM Strategic Plan

3. Put First Things First

Increase the balance and fulfillment of your professional and personal life by investing a few minutes each day in the same planning process used by many of the world’s most successful people.

- Aligning school and department improvement plans and personal growth plans to the ESM Strategic Plan
- Aligning all of our decisions and actions with our mission, vision and beliefs
- Aligning the budget to the ESM Strategic Plan
- Intentional focus on learning, creative thinking and relationship building

4. Think Win-Win

Build a team that finds faster and better solutions through clear expectations, shared responsibilities, and an understanding of priorities.

- Seeking mutually beneficial relationships by valuing and respecting others' ideas
- Approaching all partnerships with students, parents, families, staff and our community with mutual respect to meet common goals

5. Seek First to Understand, Then Be Understood

Develop the skills of effective communication that lead to greater influence and faster problem solving.

- Communicating with each other to align decisions and actions with vision, mission and beliefs
- Developing and sustaining collaborative partnerships with families and community-based partners
- Expanding and strengthening collaborative partnerships with higher education institutions and employers to extending learning opportunities for our students and build capacity for our employees

6. Synergize

Value and celebrate differences and understand how they contribute to more innovative and intelligent solutions.

- Through combining strengths of our students, staff and community, positive teamwork and collaboration, greater results are achieved than we could have achieved independently.
- Deep and consistent implementation of Professional Learning Communities helps us achieve more than any of us can do individually

7. Sharpen the Saw

Maintain and increase your newfound effectiveness by continually renewing yourself mentally and physically.

- Celebrating our successes, balancing and renewing our resources, and focusing on service

8. Find your Voice and Inspire Others to Find Theirs

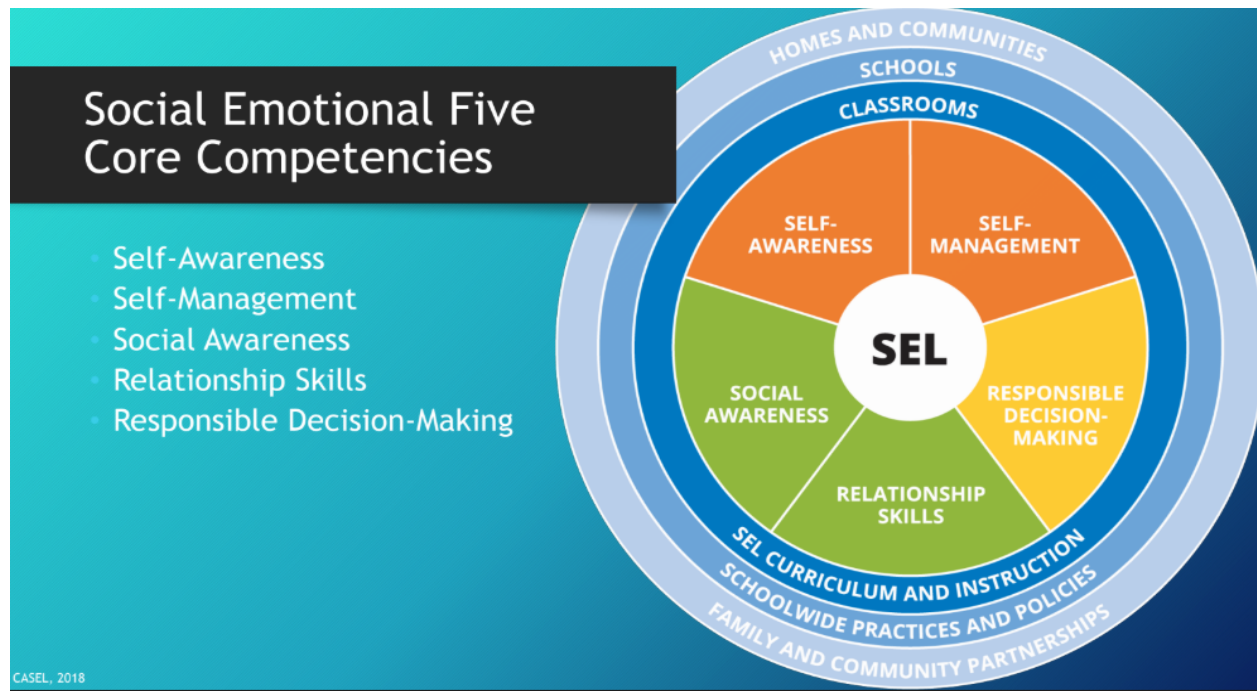

- Emphasizing students' voices, aspirations, and ideas in continually shaping our ESM Strategic Plan and guiding reflections
- Empowering parents/caregivers and family members to embrace partnership and continuous learning as a priority

C. Social Emotional Core Competencies - Universal Programming - Tier 1

The District will focus on social emotional learning to help students learn the essential skills that affect every area of their lives, including how to manage emotions and how to establish and maintain positive relationships.

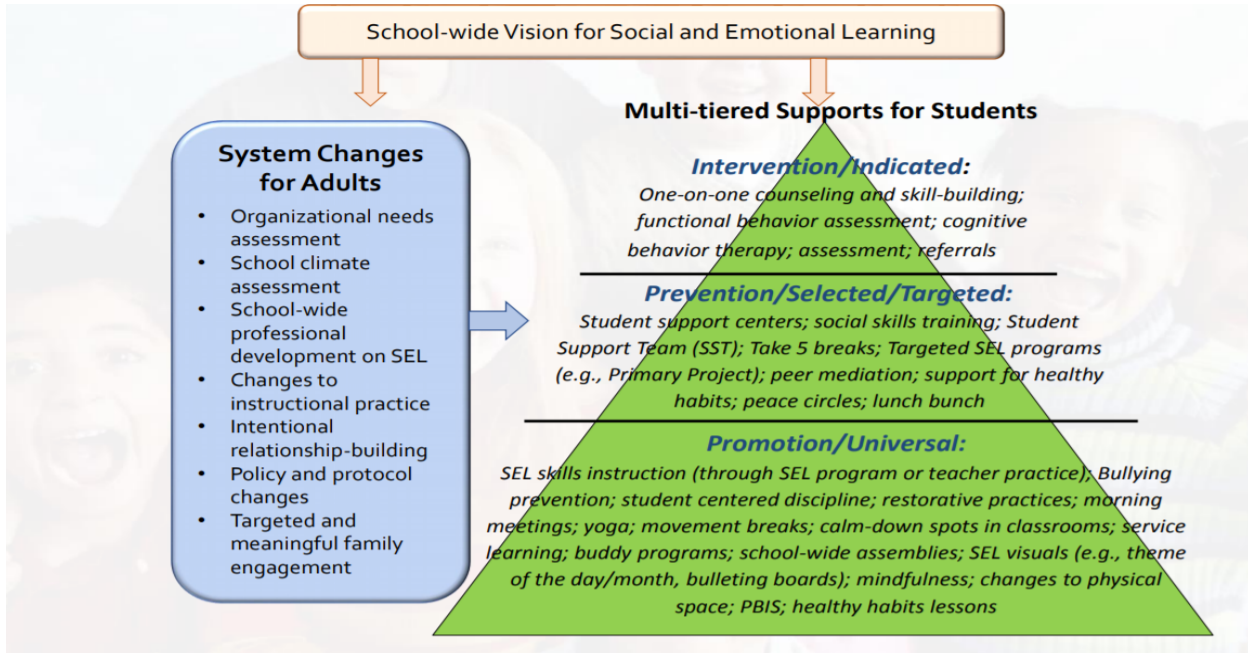

In accordance with New York State's approved ESSA Plan, the District will "ensure that all students have access and support for their social emotional well being."

The focus will be on the core competencies:

III. Multi-tiered Systems of Support - Universal Programming

The ESM School District Embraces a Multi-tiered System of Support (MTSS). MTSS is embedded into the "Plan, Do, Study, Act" portion of our strategic plan. We believe that all students benefit from Tier 1 support, some students need Tier 2 support and a few students need Tier 3 support. The district employs various strategies and evidence based practices and programming to address the needs of students.

NYS Board of Regents 11/2017

- A. Positive Behavior Interventions and Support is a systems approach to promoting a positive school climate while preventing and responding to school and classroom discipline problems. PBIS develops school-wide systems that support staff to teach and promote positive behavior in all students. By reducing behavioral problems, PBIS creates and safe learning environments where teachers can teach and students can learn.

Core Elements of PBIS:

- School-wide discipline practices
- Active leadership and ongoing participation of the Principal
- Cultivation of staff commitment for consistent implementation
- Team-based planning and problem solving
- Use of building-based discipline and academic data to make decisions
- An instructional approach to behavior and classroom management
- Classroom management and behaviorally based interventions
- Functional assessment-based behavior support planning
- Comprehensive plans for individual students with intensive needs
- Active participation of families, students and teacher faculty and staff.
- Integration with mental health and other community supports

PBIS Addresses:

- High rates of problem behavior that interfere with learning
- Ineffective and inefficient disciplinary practices
- Lack of supports for staff to address problem behavior
- Lack of general and specialized behavior interventions
- Negative school climates
- Reliance on crisis/reactive management

B. Bullying Prevention - Tier 1 and 2

Bullying Prevention is addressed proactively as part of our district wide PBIS initiative. There is ongoing staff development such as Mental Health First Aid, Dignity Act Training, Trauma Informed Training, and Crisis Response Training.

At the Elementary Level:

At the request of teachers, support counselors go into classrooms and provide skills, training and bully prevention lessons.

When bullying is identified as a problem for certain children, they are asked to join a social skills group where they work through a bully prevention curriculum. These groups run weekly for six to eight weeks.

Respect for others is a regular part of all school wide assemblies.

There is a support counselor at each elementary school, available for any student who is being bullied.

At Fremont, Minoa and Woodland Elementary Schools, the Manlius Police Department provides presentations on bully prevention.

At the Middle School:

Bullying is discussed at the beginning of the year when the ADAPEP counselor goes into each classroom.

School Wide Assemblies on Bully Prevention.

Small group interventions on bullying using the Olweus Bullying Prevention Program (best practice evidence based model).

Our School Resource Officer provides classroom lessons on bullying, particularly around cyber bullying.

There are three guidance counselors and a support counselor at Pine Grove. They are available to any student who is bullied.

At the High School:

School-wide assemblies on bully prevention

Trained staff on bully prevention, school attorney presented cyberbullying to students and parents, trauma-sensitive school presentations, Sources of Strength, AT&T cyberbullying student and staff Presentations, PBIS, ALL staff trained in DASA, Counselors complete DASA forms and submit to administrator for follow up, bully prevention included in the foundations lab by school social worker, and peer mediation available to students.

Small group interventions are also in place, as well as individual intervention when necessary.

We have five school counselors, one student support counselor, a Coordinator for Youth Development and

Leadership and a Coordinator for College and Career Readiness available to provide support to any student who is bullied.

At all levels, buildings have implemented Positive Behavioral Interventions and Support. This model builds a positive school climate through teaching expected behaviors for all students. It builds on recognizing and rewarding students who are meeting expectations.

The Dignity Act emphasizes the importance of tolerance and respect for others by all members of the school community. The role of teachers and building staff include, but are not limited to the following responsibilities:

1. Maintain a climate of mutual respect and dignity for all students regardless of actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex, which strengthen students' confidence and promote learning.
2. Confront issues of discrimination and harassment or any situation that threatens the emotional or physical health or safety of any student, school employee or any person who is lawfully on school property or at a school function.
3. Address personal biases that may prevent equal treatment of all students in the school or classroom setting.
4. Report incidents of discrimination and harassment that are witnessed or otherwise brought to a teacher's attention in a timely manner.

The district is also involved in the Covey training which provides a foundation for students to practice the Seven Habits of Highly Effective People.

C. Second Step - Skills for Social and Academic Success - Tier 1

Elementary School Counselors provide 25 lessons in each Kindergarten classroom each year. The program directly teaches skills to students that strengthen their ability to learn, manage emotions, have empathy and solve problems. The program also includes a strong home and school connection that provides tools to engage families with fun activities to

encourage interaction between students and their family members. These activities provide students with further practice of the lesson skills and concepts and gives parents the language to use to support student success.

The Second Step Program promotes:

- School success
- School connectedness
- Safe and respectful school climate

The Second Step Program prevents:

- Problem behaviors
- Peer rejection
- Impulsivity
- Antisocial behavior
- Low academic achievement

D. Positivity Project - Tier 1- Pine Grove and Minoa Elementary

Both Minoa Elementary and Pine Grove are Positivity Project (P2) Partner Schools. P2 promotes Positive Psychology within the school setting, teaching students that relationships are the cornerstone of health, happiness, and resilience. Teachers provide instruction every week of school on one of 24 character traits and then use time every day to engage students with those concepts. The Positivity Project is about human decency and promotes wellness and community. The goals of the program include making children aware that every student possesses all 24 character strengths, and to boost both self-confidence and self-awareness. Furthermore, P2 helps children better understand and value personal differences in one another.

The program nicely dovetails with PBIS, providing foundational character education within the classroom and through monthly assemblies.

E. Primary Project - Tier 2

Primary Project is a national evidence-based program that helps children in pre-k through third grade adjust to school, gain confidence, social skills, and focus on learning. Through play, Primary Project addresses children's school adjustment difficulties and increases their chances for success. Primary Project is a district-wide tier II intervention in all of the elementary schools:

- East Syracuse Elementary
- Fremont Elementary
- Minoa Elementary
- Woodland Elementary

Goals:

- Detect school adjustment difficulties early
- Children develop a school-based, trusting relationship with an adult

- Reduce social, emotional, and school adjustment difficulties

Benefits:

- Reduces negative adjustment behaviors
- Students develop positive coping strategies
- Allows school mental health professionals to focus on children who need more intensive interventions

F. School-Based Mental Health Therapy – Tier 3

Arise Child and Family Services – Currently at Central High School, Pine Grove and Woodland Elementary with expansion to other buildings within the school district during the 2019-2020 school year.

- Improve emotional, behavioral and social functioning
- Improve student outcomes
- Provide assessments
- Provide therapy (individual, family & group)
- Crisis services to families
- Psychiatric services, including medication evaluation & management

IV. Current clubs and activities that foster connection to school.

A. Central High School Clubs and Activities

Accounting Club
Air Force Cyber Security Competition
Art Club

V. Recommendations

1. Annual review of district wide character education program and strategic plan.
2. Character Education Plan will continue to align with the District’s Strategic Plan.
3. School information officer to highlight character education projects in the ESM Bulletin, newspaper, television, and radio.
4. Continue to provide universal social and emotional lessons via Google Classrooms in the event that distance learning continues in the future.
